EDUCATION

09/2022 -
06/2026

BEng General Engineering with Year in Industry

University of Sheffield - Sheffield, United Kingdom - (Expected First Class Honours)

3rd Year Modules:

- Accounting and Law for Engineers • Nuclear Science, Engineering and Technology • Power Engineering • Individual Investigative Project and other

Awards:

- The University of Sheffield International Merit Scholarship (2022-26)
- 2 x The University of Sheffield Engineering Excellence Award
- Global Engineering Challenge Week (Distinction)

09/2007 -
09/2021

Certificate of Higher Education: A-Levels

Heritage Private School - Cyprus

Further Mathematics - A*, Mathematics - A*, Physics - A*, Computer Science(AS) - A

SKILLS

Technical & Analytical: Python, MATLAB, SQL (basic), Power BI, Power Apps, Excel, Siemens PLC Programming

Finance & Data: Engineering Economics, Data Visualisation, Financial Modelling
Languages: English, Greek, and Russian

EXPERIENCE

07/2024 -
08/2025

Engineering Placement

INVISTA - Gloucester

- Managed a £100k+ international engineering project, overseeing budgets, timelines, and risk controls while coordinating cross-functional teams across Europe and the US. - developing skills in capital projects, transaction execution and client delivery.
- Applied digital tools and data analysis (Microsoft Power Platform, ScreenCloud | digital displays |) to design dashboards and automate reporting, reducing process inefficiency and saving costs - dashboards were utilised live across 3 sites in 2 regions and used for financial modelling / data-driven investment decisions.
- Deployed 3 specific power apps for asset management and technician support based on customer requests and evaluation of overall productivity.
- Improved risk and reliability of assets by introducing new preventive maintenance strategies and analytical fault-finding methods, strengthening problem-solving and quantitative assessments.
- Presented solutions to senior management, sharing knowledge on new wireless LoRaWAN monitoring tools, improving presentation skills and client-facing communications.
- Gained exposure to Koch Industries' value-creation principles and delivered value through engineering initiatives aligned with the company's vision. Focusing on client value, mutual benefit, and long-term growth.
- Acquired understanding in how global organisations assess projects, allocate capital, create value and drive returns.

09/2022 -
09/2023

National Rocketry Championship Recovery Engineer

UKSEDS - Sheffield

- Using creativity, developed a unique dual-deployment reefed parachute recovery system. During the second stage deployment, the drag coefficient was increased, and the parachute descent velocity was reduced by almost 50%.
- Consistently achieved task completion ahead of strict deadlines through disciplined time management and resilience under pressure.

07/2021 -
09/2022

Special Forces

National Guard of Cyprus

- Digitised manual logbook system with an Excel-based solution, improving fleet management, efficiency calculations and performance analytics.

06/2018 -
09/2021

Adventure Park Equipment Safety Instructor

Sparti Platres Rope Adventure Park - Limassol, Cyprus

- Mastered communication across cultures through adaptive training sessions; Accelerated customer satisfaction scores while teaching over 1000 individuals from 30 different countries the importance of safety equipment.

EXTRACURRICULAR ACTIVITIES

Vice President, 03/2023 - 07/2024

Sheffield Space Initiative Society

- Led 140+ society members; coordinated events, secured guest speakers, and increased membership by more than 50%.
- Secured more than £2,000 in funding from multiple stakeholders such as aerospace companies, institutions and individuals.

Tennis - LTA Level 1 Accredited Coach (British Lawn Tennis Association)

Financial Markets & Digital Innovation
